5. Try not to finish your panel early.
6. Try to finish your panel on time.
7. In the program, the discussion is planned after the presentations. As a Chair, you may do it differently and discuss each presentation, but if you choose, watch the timing.
8. Prepare questions related to the panel topic/presentations for discussion in advance in case the listeners need to ask more/any questions.
9. Check questions in "Q&A" and Chat menu for possible attendee questions on time for discussion (end of each session).
10. Check raised hands in the "Participants" menu (attendee section) for possible attendee audio interaction (speaking) at the time of discussion (end of each session).
